The proof that the Mueller Russia investigation is a hoax is simple:

1. Every investigation has a **beginning**.
2. The beginning of an investigation **affects the entire investigation**.
3. If the beginning of an investigation is unreliable, the **entire investigation is unreliable**.
4. The beginning of the investigation was **done by Peter Strzok**.
5. Peter Strzok is an **unreliable investigator** (for proof of this fact see [Simple Proof That Peter Strzok Should Be Fired From The FBI](#))
6. Therefore, the **entire investigation is unreliable**.
7. An unreliable investigation is a **hoax**.
8. Therefore, the **Mueller Russia investigation is a hoax**.
